A Letter from MidWest Storage Barns

To our valued customers,

MidWest Storage Barns — in business since 2003, is a family-owned business.

MidWest Storage Barns — A premier provider of quality backyard structures, builds every structure with high quality materials and gives attention to detail for style, durability, and dependability.

A MidWest Storage Barns portable building will allow you to keep tools and equipment clean and ready to go when you need them. Gather camping, fishing, and hunting equipment in a central location, or create an enjoyable working space for gardening, crafts and other hobbies. Turn a cluttered property into a tidy landscape with a place for everything. The possibilities are endless.

We offer a large selection of quality structures (in metal and wood siding) to fit your storage and recreational dreams. Take some time to browse through our catalog to see which building will best fit your needs. Call us or come by one of our sales lots, and let one of our helpful sales people help you with your questions. At MidWest Storage Barns, we are committed to quality workmanship and customer satisfaction.

Thank you for choosing a MidWest Storage Barns portable building!

From the desk of
Roman Stutzman

John 3:16

For God so loved the world,
that he gave his only begotten
Son, that whosoever believeth
in him should not perish, but
have everlasting life.

OUR #1 SELLER

HIBARNS

Add Beauty and Space in Every Setting!

Hibarns are lofted in the front and back for spaciousness with one portable ladder included for easy mobility. Ask us to customize your Hibarn with a loft door that opens.

Hibarns have a unique finished overhang called a Turkey Tail on the front of your barn. This gives your barn a beautiful finished look to it. The metal roof edge has rubber edge guards on it for safety. A Diamond Plate threshold sits below your 6' key locking double door entrance adding durability to your barn opening.

Backyard Storage!

A HOBBY FARMER'S DELIGHT

ANIMAL SHELTERS

Greatly Appreciated by Livestock Enthusiasts!

Our Animal Shelters can serve as a horse, calving, lambing, or kidding barn. Quality white oak plank lined loafing area adds to the durability and protection to the inside of this shelter.

Equipment, Feed, and Tack are Essential Too!

Create this area room by including a 6' wide room to organize and store all of your equipment, feed, and tack in. A 3' single key locking door is great for loading and unloading all of your storage area. This area does not add length to your building, but insures a way to keep your essentials dry and close by when needed.

LITTLE CABIN IN THE WOODS

BARN CABINS
Vintage Look!

With a Barn Cabin, you'll have the added space of the hip roof in your 8' loft in front and back!

A single, easy, movable loft ladder allows you access to each end of your spacious loft.

A beautiful 6' porch is included in the length of your building. The porch is the perfect spot to sit and enjoy the beautiful sunrise with a cup of coffee!

FOR EXAMPLE: IF YOU PURCHASED A 14' X 40' BARN CABIN, YOUR INDOOR CABIN AREA WOULD BE 14' X 34' + A 6' PORCH. THIS COMES WITH LOFT SPACE ABOVE YOUR 6' PORCH.

DELUXE CABINS

Endless Possibilities!

Deluxe Cabins are a smart choice for your office building, hunting lodge, or cabin by the lake. Their cathedral ceiling allows for an 8' loft in the front and back of the cabin. The front loft area has a 18" x 27" aluminum window in it. Both loft ends have a portable ladder for easy access.

Finish Your 6' Sitting Porch by Adding a Vinyl Railing

With or without a railing, your porch adds quality, beauty, and dimension to your Deluxe Cabin. Your 6' porch does not add any length to your building.

FOR EXAMPLE: IF YOU PURCHASED A 15' X 40' DELUXE CABIN, YOUR INDOOR CABIN AREA WOULD BE 15' X 34' + A 6' PORCH. COMES WITH LOFT SPACE ABOVE YOUR 6' PORCH.

Spacious Interior!

THE CABIN WITH APPEAL

DORMER CABINS

Attractive, Spacious, and Economical—
All in One!

MidWest Storage Barn's Dormer Cabins are very spacious. They have an airy look with a 16' dormer encompassed with a cathedral ceiling.

Just like our Deluxe Cabins, the Dormer Cabin has two 8' lofts, one in each end with two ladders. Underneath your loft, there is 6' 10" of space. Six 22" x 36" aluminum windows are included and one 18" x 27" aluminum loft window providing lots of natural light in this peaceful cabin.

EXTRA OPTION:
AS AN EXTRA OPTION, YOU CAN EASILY
ADD FRENCH DOORS OR AN OCTAGON WINDOW
TO YOUR DORMER CABIN.

EVERLAST ROOFING

Metal Siding Used on Metal Buildings

A 28-gauge AZM substrate coated with the COLORBOND paint system will deliver enduring corrosion resistance and longer life. Deeper minor rib heights combined with thicker steel, create a stronger, more durable panel.

- COLORBOND chalk and fade resistance
- Greater snow and wind yields and hail resistance
- Highly resistant to UV rays, acid rain, salt spray, and abrasion

**Everlast
Roofing, Inc.**

OUR NAME SAYS IT ALL

Available exclusively from Everlast Roofing, Inc., the Evercure® Process, featuring revolutionary CECI® enhancement, seals the cut edge of our Everlast metal panels and protects them from both natural and commercial corrosive elements. Rest easy knowing that Everlast's panels are strong, durable, and less likely to crack over time, so you can enjoy the lasting beauty of your metal roofing and siding for years to come.

DURATION PAINT

Paint Used on Buildings with Wood Siding

Got a Favorite Paint Chip?

We'll Match it with Sherwin Williams Duration Paint!

Duration Key Benefits

- Formulated with PermaLast™ Technology — for more durability and a thicker coat than ordinary latex paints
- Excellent protection from cracking, peeling, blistering and dirt pick up
- Flash rust resistance minimizes nail head rusting and its tannin bleed resistance is better than conventional latex paints
- Self-priming — use one coat for repaints and two coats for unpainted surfaces
- Meets the most stringent VOC regulations
- Limited Lifetime Warranty

OVER 1000 COLORS!

LP SMART SIDING

Siding Used on Wood Buildings

LP® SmartSide® products deliver all the warmth and beauty of traditional wood, plus the durability and workability of engineered wood.

The SmartGuard process treats each wood strand throughout SmartSide and ProStruct Floor products with an advanced formula of binders, waxes and zinc borate to resist fungi decay and termites.

Outdoor Building Solutions

Fight Back Against Termites and Rot

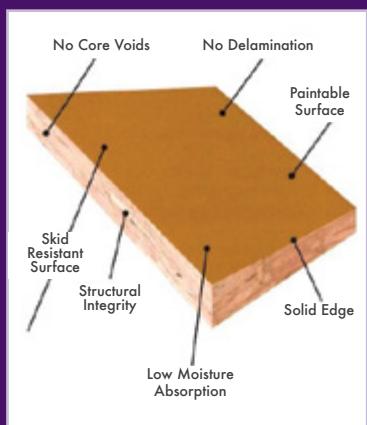

All LP SmartSide and ProStruct Floor products are treated with our proprietary SmartGuard process to resist fungal decay and termites in harsh environments. To prove it, LP SmartSide products are subjected to intense testing against moisture and thriving termite colonies in the jungles of Hilo, Hawaii. Even after years of exposure, LP SmartSide products remain structurally sound.

- Combats Rotting, Splitting, Delamination
- Free of Knots and Patches
- Resists Fungal Decay and Termites
- Stands Up to Hail
- Deep Cedar Grain Textures
- Superior Impact Resistance
- Will Not Rust
- Paint-ready Surface with Virtually Any Color Choice

MIDWEST STORAGE FLOORING

Shed Floors

Make Your Barn or Shed Feel Like Home with High Quality, PerformMax® Flooring.

PerformMax® flooring is an extremely durable flooring product. It is pressed with a medium density overlay (MDO) which gives it the appearance of laminate flooring.

- These flooring panels are manufactured by blending precisely cut wood strands with an advanced resin technology.
- The strands are then oriented in a four-layer process in which 2 core layers are oriented perpendicular to the 2 surface layers.
- A very durable MDO overlay is applied to the surface and the combination of strands and overlay are pressed under high heat and pressure to form an extremely durable panel.

RENT TO OWN

No Credit Check

Established as an option to mini-warehousing. Our no strings attached Rent to Own plan allows you the opportunity to have a storage facility in your own backyard. Plus, if you complete the rental contract, the building is yours to keep.

No credit application required.

Rent To Own is not available for business use or primary residence.

Sales tax applies to all prices.

Frequently Asked Questions

When will I begin making Rent to Own payments?

The deposit and first payment is due before delivery, at signing. Your second payment will be due approximately one month after delivery.

What happens to my deposit?

The deposit can be applied to either your Early Purchase Option or final payment. You won't have to wait for a rebate check to arrive in the mail.

Is this a loan?

No. It is a rental-purchase agreement. You are renting with an option to buy at any time.

May I pay extra toward the principal?

With Heartland Capital Investment's Rent to Own Program there is NO principal or interest. Any additional amount paid over the regular rental amount goes into your Reserve Account, which can be applied to the Early Purchase Option at any time.

May I pay off the total cost early, without penalty?

Absolutely. Call our friendly, customer service representatives to receive an Early Purchase Option quote at any time.

What is Protection+?

Protection+ is a Heartland Capital Investment program that protects your building in case of damage. Your membership also provides access to many other great benefits.

MidWest Storage Barns 7 Year Limited Manufacturers Warranty

MidWest Storage Barns warrants to the original purchaser that your MidWest Storage Barns product is free from defects in material or workmanship upon delivery, and will replace or repair any components that do not provide reasonable service within a period of seven (7) years from the date of purchase. Correction by repair or replacement of materials or workmanship in your MidWest Storage Barns products, which our examination shall disclose to our satisfaction to be defective, shall constitute fulfillment of all liabilities of MidWest Storage Barns under this warranty.

MidWest Storage Barns shall not be responsible for the natural characteristics of some wood to split, warp or twist. Housing live animals in your building voids warranty.

This warranty shall not apply to any MidWest Storage Barns product of any part thereof which has been damaged by fire, flood, water, earthquake, earth movement, hail, wind, adverse weather conditions, vandalism, theft, act of God, accident or other event or casualty. The warranty does not cover damage caused by abuse, misuse, alteration, neglect, improper maintenance, or use of building in a commercial application.

The above warranties are subject to the following conditions:

You must submit bill of sale or other proof of purchase.

1. You must notify MidWest Storage Barns within 30 days after you discover a defect in your building.
2. All Warranty servicing of product must be made by MidWest Storage Barns or its Agents.
3. This Warranty is effective only if the building stays at the site where it was delivered.
4. You must perform adequate maintenance on your building including leveling adjustments and keeping vegetation or dirt away from the edge of the building.

Free delivery within 50 miles of closest dealer.

DELIVERY

Not A Problem. We Deliver...Your Building!

Standard Free Delivery Includes:

- Ability to access location with our equipment
- Any openings we need to take your building through must be at least one foot wider than the building width
- Setting Your Building On Your Level Site
- Delivery date will be synchronized with your local delivery driver's schedule
- Free delivery with in 50 miles of closest dealer

Some additional items to consider:

1. We reserve the right to reschedule a delivery if the ground conditions aren't adequate for a safe and non-destructive delivery.
2. MidWest Storage Barns is not responsible for damages to yards, driveways, and or ground utilities.
3. Customer is responsible for all code restraints or property permits.
4. We don't deliver on Saturday or Sunday.
5. Our professional driver performs many deliveries and your cooperation with these steps will help insure a pleasant delivery experience.

FREE DELIVERY

Free Delivery within 50 miles of closest dealer. \$3.00 loaded mile after 50 miles.

MILEAGE DELIVERY CHARGES ARE BASED OFF DOT (PERMIT) ISSUED MILEAGE.

Got A Tight Corner? Let Us Use The "Mule" — Our Portable Building Mover!

Our "Mule" allows us to set your building on your site without having to drive our truck across your yard.

THE INFORMATION CONTAINED IN THIS CATALOG IS SUBJECT TO CHANGE WITHOUT NOTICE.

Site Preparation Information:

A good foundation is what your building rests upon and it is very important in keeping everything level and maintenance free for years to come. Start by checking your local building codes to make sure you don't have problems with having a building added to your property. Preparing your site is your responsibility before your building is delivered to you.

Our Recommendations..

1. The best pad is a level 4" to 5" thick concrete pad, which is solid, durable and eye appealing, but this is also the most costly way to go.
2. A foundation of Concrete pillars is a good option for your larger buildings. Have the pillars go 36" to 48" into the ground with the top of all the pillars level and even with each other. Have pillars under each treated skid of the building, spaced every 6' to 8' apart. Ask your dealer for the placement of the skids on your building.
3. A gravel pad is a much more popular and economical way to prepare your site and will also allow for proper drainage of water that will run off the roof of your building. You will want a level pad that is about 24" wider and longer than the dimensions of your building. To prepare a gravel base, remove the sod and level the site by removing dirt where necessary, and spread the gravel to a depth of about 4". Tamp the gravel down until it is evenly distributed and the site is flat and level. A "frame" of pressure treated 4 x 6's, railroad ties, or cement blocks will keep the gravel in place and create a neater appearance; however it is not required. We do not recommend using sand or pea gravel for your site.
4. If you are getting a smaller building, you can set it on concrete blocks. The customer is responsible for supplying the blocks and then we will set in on the blocks for you. We recommend the solid concrete blocks that measure 4" x 8" x 16". It's always a good idea to get more blocks than what you expect you will need. Unused blocks can be returned.

Customers are responsible to trim or tie back tree branches to create an open passage for the vehicle and building. Make sure objects that are not clearly visible are marked by flags for safe maneuvering (such as lawn sprinklers, pipes, wires etc.). If a property line is to be crossed, the customer is responsible to make necessary arrangements with neighbors prior to the deliver of the building.
